

# NOTICE TO CALIFORNIA COMMERCIAL FISHERMEN AND PROCESSORS

2003 Federal Groundfish Management Measures that Affect Fishermen in Federal and State Waters<sup>1</sup> off California

## FEDERAL LIMITED ENTRY<sup>2</sup>

### FIXED GEAR FISHERY

September - October

### All Groundfish (exceptions<sup>3</sup>) Fishing With Non-Trawl Gear Is Prohibited Within The Non-Trawl Rockfish Conservation Area (RCA).

#### *Oregon border south to 40° 10' N*

The RCA is generally defined as the waters between 27 and 100 fathoms.

#### *40° 10' south to 34° 27' N* (Point Conception)

The RCA is generally defined as the waters between 20 and 150 fathoms. California regulations refer to this area as the California Rockfish Conservation Area (CRCA)

#### *34° 27' N south to Mexico border*

The RCA is generally defined as the waters between 30 and 200 fathoms and inside 30 fathoms around islands. (Effective September 2nd)

The actual boundaries of the RCA are defined by the 20 fathom depth contour and by a series of straight lines between "way points" for the 27, 30, 100, and 150 management lines. The coordinates for the way points are available from the National Marine Fisheries Service (NMFS-SEA-03-14). Vessels with non-trawl gear may transit through the RCA with or without groundfish on board. However, if a vessel fishes for non-groundfish species in the RCA, it may not participate in any groundfish fishing during that trip. Also, there are two cowcod conservation areas located south of Point Conception where fishing for groundfish is highly restricted. See the Federal Register for details.

### ***LANDINGS ARE RESTRICTED TO THE SPECIES OR SPECIES GROUPS LISTED BELOW!***

## ROCKFISH

### NEARSHORE ROCKFISH

See Digest of CA Commercial Fish Laws for permit requirements, size limits, and state trip limits

#### North of 40° 10' N:

- No more than 4,000 pounds may be landed during the 2-month cumulative period.
  - ✓ No more than 1,200 pounds may be species other than black or blue rockfish.

#### South of 40° 10' N:

#### SHALLOW NEARSHORE ROCKFISH

- No more than **300** pounds may be landed during the 2-month cumulative period.

#### DEEP NEARSHORE ROCKFISH

- No more than **300** pounds may be landed during the 2-month cumulative period.

#### CALIFORNIA SCORPIONFISH

- **CLOSED.**

## SHELF

### MINOR SHELF, CHILIPEPPER, WIDOW and YELLOWTAIL

- No more than 200 pounds may be landed during the 2-month cumulative period.
  - ✓ **North of 40° 10' N:** Salmon trollers: for every two pounds (head on, gutted) of salmon caught one pound (round weight) of yellowtail may be landed per trip while fishing **inside the RCA.**

## SLOPE

### MINOR SLOPE

- **Oregon border - 38° N:** No more than 25% of weight of the sablefish landed.
- **South of 38° N:** No more than 30,000 pounds may be landed during the 2-month cumulative period.

### SPLITNOSE

- **40° 10' N - 38° N:** No more than 1,800 pounds may be landed during the 2-month cumulative period.
- **South of 38° N:** No more than 20,000 pounds may be landed during the 2-month cumulative period.

### PACIFIC OCEAN PERCH

- **North of 40° 10' N:** No more than 1,800 pounds may be landed during the 2-month cumulative period.

## THORNYHEADS

- No more than 9,000 pounds longspine thornyhead and 2,000 pounds shortspine thornyhead may be landed during the 2-month cumulative period.

## ROUNDFISH

### SABLEFISH<sup>7</sup>

- North of 36° N: 300 pound daily trip limit<sup>5</sup> **OR** one landing per fishing week<sup>8</sup> up to 800 pounds, with a 2-month cumulative limit of 3,200 pounds.
- South of 36° N: 350 pound daily trip limit<sup>5</sup> **OR** one landing per fishing week<sup>8</sup> up to 1,050 pounds.

### LINGCOD

- 400 pounds per month; 24-inch minimum size limit.

## FLATFISH

### ALL FLATFISH<sup>3</sup>

- 5,000 pounds per month.

Sanddab fishing south of 40° 10' N is allowed in the RCAs when using hook & line gear with no more than 12 hooks per line, using hooks no larger than "Number 2" hooks, which measure 11 mm point to shank, and up to 1 pound of weight per line. No other groundfish may be retained or landed.

### OTHER GROUNDFISH<sup>11</sup>

- Not Limited<sup>3</sup>.

---

NOTES: 1. California adopts federal groundfish regulations (California Code of Regulations, Title 14, Section 189, Commercial Groundfish Fishing)

2. A vessel with a federal limited entry permit endorsed for set longline and/or trap may fish in the open access fishery using a gear other than the endorsement gear; however, the vessel will be held to limited entry limits even if the open access limit is larger. If the open access limit is smaller than the limited entry limit, the vessel cannot land more than the open access limit using non-endorsed gear; the remainder of the limited entry limit may be taken with the endorsed gear.

3. Pacific sanddabs may be fished inside the RCA following the restrictions in the Flatfish section, and when salmon fishing, yellowtail rockfish may be retained inside the RCA following the restrictions in the **SHELF** Rockfish section. Vessels fishing for all federal groundfish species, **except rockfish (not including CA scorpionfish) and lingcod**, with hook&line and/or trap gear may operate from shore to a boundary line approximating 50 fm between a line drawn due south from Point Fermin (33° 42' 30" N. lat.; 118° 17' 30" W. long.) and a line drawn due west from the Newport South Jetty (33° 35' 37" N. lat.; 117° 52' 50" W. long.).

4. The 2-month fishing periods are: January-February; March-April; May-June; July-August; September-October; November-December.

5. Daily Trip Limit – The maximum amount of groundfish that may be taken and retained, possessed, or landed per vessel in 24 consecutive hours, starting at 0001 hours local time. Only one landing of groundfish shall be made in that 24-hour period. Daily trip limits shall not be accumulated during multiple day trips.

6. Closure means that taking and retaining, possessing, or landing the particular species or species group is prohibited.

7. Sablefish trip limits are in round weight equivalent. California allows dressed weight to be reported on landing receipts. If so reported, the receipts must be marked with the code (02) for "dressed head off" in the condition column. The equivalent round weight is computed by multiplying 1.6 times the dressed weight.

8. A fishing week is 7 consecutive days from 0001 Sunday through 2400 Saturday.

9. Groundfish species or species groups for which there is a trip limit, size limit, or OY (optimum yield) must be sorted prior to weighing and the weight reported separately on the Fish and Game receipt.

10. Landing receipts for groundfish and CGS must be maintained onboard the vessel during and for 15 days after the end of the cumulative limit period during which the landings occurred (63 FR 34606) (Fish & Game Code 8046.1).

11. Other Groundfish: leopard and soupfin shark, spiny dogfish; big, California and longnose skate; ratfish; finescale codling; and grenadier.

12. Operating in areas with different trip limits. If a vessel; a.) fishes for any groundfish species or species group in an area where a more restrictive limit applies before fishing in an area where a more liberal limit or no limit applies; or b.) takes and retains a groundfish species or species group in an area where a more liberal or no limit applies and takes and retains, possesses or lands that species or species group in an area where a more restrictive limit applies; then the vessel is subject to the more restrictive limit for the period.

# NOTICE TO CALIFORNIA COMMERCIAL FISHERMEN AND PROCESSORS

2003 Federal Groundfish Management Measures that Affect Fishermen in Federal and State Waters<sup>1</sup> off California

## FEDERAL OPEN ACCESS

### NON-TRAWL FISHERY

September - October

### All Groundfish (exceptions<sup>2</sup>) Fishing With Non-Trawl Gear Is Prohibited Within The Non-Trawl Rockfish Conservation Area (RCA).

#### *Oregon border south to 40° 10' N*

The RCA is generally defined as the waters between 27 and 100 fathoms.

#### *40° 10' south to 34° 27' N (Point Conception)*

The RCA is generally defined as the waters between 20 and 150 fathoms. California regulations refer to this area as the California Rockfish Conservation Area (CRCA)

#### *34° 27' N south to Mexico border*

The RCA is generally defined as the waters between 30 and 200 fathoms and inside 30 fathoms around islands. (Effective September 2nd)

The actual boundaries of the RCA are defined by the 20 fathom depth contour and by a series of straight lines between "way points" for the 27, 30, 100, and 150 management lines. The coordinates for the way points are available from the National Marine Fisheries Service (NMFS-SEA-03-14). Vessels with non-trawl gear may transit through the RCA with or without groundfish on board. However, if a vessel fishes for non-groundfish species in the RCA, it may not participate in any groundfish fishing during that trip. Also, there are two cowcod conservation areas located south of Point Conception where fishing for groundfish is highly restricted. See the Federal Register for details.

### ***LANDINGS ARE RESTRICTED TO THE SPECIES OR SPECIES GROUPS LISTED BELOW!***

## ROCKFISH

### NEARSHORE ROCKFISH

See Digest of CA Commercial Fish Laws for permit requirements, size limits, and state trip limits

#### North of 40° 10' N:

- No more than 4,000 pounds may be landed during the 2-month cumulative period.
- ✓ No more than 1,200 pounds may be species other than black or blue rockfish.

#### South of 40° 10' N:

#### SHALLOW NEARSHORE ROCKFISH

- No more than 300 pounds may be landed during the 2-month cumulative period.

#### DEEP NEARSHORE ROCKFISH

- No more than 300 pounds may be landed during the 2-month cumulative period.

#### CALIFORNIA SCORPIONFISH

- **CLOSED.**

## SHELF

### MINOR SHELF, CHILIPEPPER, WIDOW and YELLOWTAIL

- No more than 200 pounds may be landed during the 2-month cumulative period.
- ✓ **North of 40° 10' N:** Salmon trollers: for every two pounds (head on, gutted) of salmon caught one pound (round weight) of yellowtail may be landed per trip while fishing inside the RCA.

## SLOPE

### MINOR SLOPE

- **Oregon border - 38° N:** No more than 25% of weight of the sablefish landed.
- **South of 38° N:** No more than 10,000 pounds may be landed during the 2-month cumulative period.

### SPLITNOSE

- **South of 40° 10' N:** No more than 200 pounds may be landed per month.

### PACIFIC OCEAN PERCH

- **North of 40° 10' N:** No more than 100 pounds may be landed per month.

## THORNYHEADS

- **South of 34° 27' N only:** 50 pound daily trip limit<sup>5</sup> with a 2-month cumulative limit of 2,000 pounds.

## ROUNDFISH

### SABLEFISH<sup>7</sup>

- North of 36° N: 300 pound daily trip limit<sup>5</sup> **OR** one landing per fishing week<sup>8</sup> up to 800 pounds, with a 2-month cumulative limit of 3,200 pounds.
- South of 36° N: 350 pound daily trip limit<sup>5</sup> **OR** one landing per fishing week<sup>8</sup> up to 1,050 pounds.

### LINGCOD

- 300 pounds per month; 24-inch minimum size limit.

## FLATFISH

### ALL FLATFISH<sup>2</sup>

- 3,000 pounds per month.
  - ✓ No more than 300 pounds of which may be species other than Pacific Sanddabs.

Sanddab fishing south of 40° 10' N is allowed in the RCAs when using hook & line gear with no more than 12 hooks per line, using hooks no larger than "Number 2" hooks, which measure 11 mm point to shank, and up to 1 pound of weight per line. No other groundfish may be retained or landed.

### OTHER GROUNDFISH<sup>10</sup>

- Not Limited<sup>2</sup>.

---

NOTES: 1. California adopts federal groundfish regulations (California Code of Regulations, Title 14, Section 189, Commercial Groundfish Fishing)

2. Pacific sanddabs may be fished inside the RCA following the restrictions in the Flatfish section, and when salmon fishing, yellowtail rockfish may be retained inside the RCA following the restrictions in the **SHELF Rockfish** section. Vessels fishing for all federal groundfish species, **except rockfish (not including CA scorpionfish) and lingcod**, with hook&line and/or trap gear may operate from shore to a boundary line approximating 50 fm between a line drawn due south from Point Fermin (33° 42' 30" N. lat.; 118° 17' 30" W. long.) and a line drawn due west from the Newport South Jetty (33° 35' 37" N. lat.; 117° 52' 50" W. long.,).

3. The 2-month fishing periods are: January-February; March-April; May-June; July-August; September-October; November-December.

4. Daily Trip Limit – The maximum amount of groundfish that may be taken and retained, possessed, or landed per vessel in 24 consecutive hours, starting at 0001 hours local time. Only one landing of groundfish shall be made in that 24-hour period. Daily trip limits shall not be accumulated during multiple day trips.

5. Closure means that taking and retaining, possessing, or landing the particular species or species group is prohibited.

6. Sablefish trip limits are in round weight equivalent. California allows dressed weight to be reported on landing receipts. If so reported, the receipts must be marked with the code (02) for "dressed head off" in the condition column. The equivalent round weight is computed by multiplying 1.6 times the dressed weight.

7. A fishing week is 7 consecutive days from 0001 Sunday through 2400 Saturday.

8. Groundfish species or species groups for which there is a trip limit, size limit, or OY (optimum yield) must be sorted prior to weighing and the weight reported separately on the Fish and Game receipt.

9. Landing receipts for groundfish and CGS must be maintained onboard the vessel during and for 15 days after the end of the cumulative limit period during which the landings occurred (63 FR 34606) (Fish & Game Code 8046.1).

10. Other Groundfish: leopard and soupfin shark, spiny dogfish; big, California and longnose skate; ratfish; finescale codling; and grenadier.

11. Operating in areas with different trip limits. If a vessel; a.) fishes for any groundfish species or species group in an area where a more restrictive limit applies before fishing in an area where a more liberal limit or no limit applies; or b.) takes and retains a groundfish species or species group in an area where a more liberal or no limit applies and takes and retains, possesses or lands that species or species group in an area where a more restrictive limit applies; then the vessel is subject to the more restrictive limit for the period.
